

LANDSCAPE REPORT - 14 August 2013

Pond:

- Tru-Green will investigate the use of weed killer appropriate for aquatic areas.

Country Cub – 49th:

- Dead wood and invasive tree shoots will be removed from bushes. Selected dead bushes will be removed, allowing ground cover to spread.
- Two fir trees will be limbed above existing shrubs.
- Attention to weeding and hard trimming the ground cover will continue
- Tree branches overhanging the sidewalk have been removed.
- New trees will be fertilized to promote growth.

45th Street:

- Tree bags have been removed from new trees along this area because the irrigation system is working adequately.
- Some trees will be re-staked higher up the trunk of particularly slender specimens.
- Barberry shaping will continue, but less severely
- Larger shrubs will be trimmed to 6 feet.
- Trees overhanging shrubs will be limbed up.

Orchid triangle:

- Two new trees have been fitted with water bags. They will be fertilized to promote growth.
