

The Committee welcomes the participation of Mr. David Stewart.

Mr. Stewart joined Kurt Powell (WCM), Michael McCormick (Tru Green) and committee member Lyn Martin to discuss provisions of the current contract with Tru Green, then to advise Mr. McCormick of the care required to free the swales in the south section of Hollyhock Circle.

It was noted that horsetail fern has appeared in the side yard at 4994, and will require vigilant attention to control. The matter was discussed with the homeowner.

Tru Green was asked to remove a dying mugo pine on the Country Club common area just west of the pond.

Tru Green has finished week three of the pruning cycle; cycle four begins today (9/11). Fall pruning will begin in week 1 of the next pruning cycle.

Lyn Martin for the Landscape Committee
