

**LANDSCAPE COMMITTEE REPORT TO BOARD**

**January 10, 2018**

Committee members met with Management and NLS on December 28.

The Committee met on Monday, January 8 to pick up 2018 tasks. The Committee will continue to monitor implementation of Contract specifications. Electronic forms (preferably with photo image) will continue to be used by committee members to alert Management to areas requiring attention. We are examining pruning schedules at this time.

We shall elicit monthly schedules of services from NLS. This will help us inform Owners when certain kinds of work will be underway.

Owners should continue to submit green request forms which are available in the Club House.

Respectfully submitted,

D. Carpenter, Chair
