

Pond Report December 2017

Tony, GAIA Supervisor, is recovering from back surgery, so has been working from home. Through telephone and email we processed the SVOA pond items outstanding for this year as follows:

- GAIA removed the spraying fountains, drained, cleaned off and stored them in the pumphouse for the winter.
- GAIA completed Phase I 2017 portion of the North Pond improvement (see pics below). Kurt provided the changed irrigation plan for the North Pond. Tony will contact Kurt if he has any questions regarding location of the irrigation in this area.

North Pond Phase I Improvements:

Sheila
