

# Stoneybrook Village Preparedness Committee

Board Meeting: September 12, 2018

---

**Last Preparedness Meeting:** August 13, 7 PM, Stoneybrook Lodge

**Next Preparedness Meeting:** September 19, 7 PM, Stoneybrook Lodge

**I. New Members**

Hugh Moore and Marj Cannon have joined us as team leaders for the Emergency Response 4x4 drivers.

Danny Kugler has joined us as team leader for the Emergency Snow Shovelers (as well as team member of the Assess and Assist Response Team).

Please confirm them and add them to our roster.

**II. 4x4 Emergency Response Drivers**

Under the new leadership of Hugh and Marj, the Emergency Response 4x4 Drivers have gotten more organized and have recruited additional members. They now have 12 volunteers that will be prepared to provide emergency transportation in the event of a disaster. The team has also begun defining their mission, their limits, and their communication methods.

**III. Communications**

The Preparedness Committee and Team Leaders worked together on defining how they will communicate in difficult circumstances. It was concluded that initial communication would be through a group text. If no cell or land line service is available, members will initiate a walking tree communication: like a phone tree, only it would be done with each member walking to several members' homes to communicate.

**IV. Training**

At the last meeting, the members reviewed different methods of transporting injured neighbors and practiced several of the methods, including: chair carry, blanket carry, and the SVOA stretcher.
