

Tree Committee Report  
December 12, 2016

5 birch trees have been removed. Replacement trees will not be installed at four of the locations at the express wish of the adjacent homeowner. One or more replacement trees will be planted this spring on Stoneybrook Street after ARC approval.

The Committee has approved 5 requests for limb removal in common area trees where branches extend into private yards. This work will be done in connection with the pruning of most common area trees east of 49<sup>th</sup> Street. Kurt Powell has requested bids for this work.
