

Tree Committee Report - June 2017

Tree trimming needed in your area

Many of the oak trees in the common area along 45th Street need pruning. In some cases limbs impact private lots, including interfering with shrubs, rubbing on roofs and the like.

The Village Tree Committee proposes hiring a certified arborist to do pruning. We anticipate a few lower limbs will be removed. But most of the crown will remain intact.

Following is a list of home addresses where offending trees are in the common area behind the lot at the address..

5033 SW Hollyhock
5037 SW Hollyhock
5031 SW Hollyhock
4505 SW Hollyhock
4521 SW Hollyhock
4539 SW Hollyhock
4563 SW Hollyhock
4591 SW Hollyhock
4607 SW Hollyhock

We are asking owners to take a look at their property. Decision to remove limbs that are impacting the common area will be made by the Tree Committee.

Limbs that extend into the owners' property will not be removed unless they authorize it. The Home Owners Association will cover the cost of all pruning. There will be no cost to the owners

We are asking owners to respond to Logan Norris about this matter. If an owner wants to meet on site to discuss the matter, we will gladly do so.
